Bradford-Scott Data Corporation is looking for a dynamic individual who is detail-oriented, great at building and maintaining customer relationships, likes to travel, and has strong computer hardware experience and skills to support our clients and Conversion team.

Candidates for this role must have a valid driver's license, a clean driving record, and be eligible for a passport. The **Network-Server-Infrastructure-Implementation Engineer** position requires travel to client sites both domestic and international.

The ideal candidate has an advanced skillset in the related IT fields.

If the above describes you – please keep reading!

The Network-Server-Infrastructure-Implementation Engineer is responsible for all hardware needs as they relate to converting new clients to the Sharetec system. Our client base consists of small to medium size organizations.

- Perform and direct ongoing hardware and software analysis and maintenance operations, including installing or upgrading hardware or software
- Configure servers and networks to meet functional specifications
- Apply proper functioning of patches and fixes
- Communicate with staff or clients to understand specific system requirements, to prepare for diagnosing, testing and installing of hardware and equipment
- Lead the hardware onboarding of new Sharetec customers
- Identify stability, interoperability, portability, security, or scalability of system architecture
- Collaborate with other departments to select appropriate design solutions to ensure the compatibility of system components
- Provide technical guidance and support for the development or troubleshooting of systems
- Identify system data, hardware, or software components required to meet user needs
- Provide customers and installation teams guidelines for implementing new products
- Communicate directly with clients and/or their IT staff
- Build and maintain client relationships

This position is classified as non-exempt (OT eligible) and starts at $24.03/hr ($50,000 annually). Salary is commensurate with experience.
