**Bensenville Community Credit Union Gets Sharetec Core**

INDIANAPOLIS, IN -- Bradford-Scott Data Corporation, a distributor of the Sharetec System, announced that Bensenville Community Credit Union, in Bensenville, Illinois, has implemented Sharetec core system. The Sharetec core data processing system is utilized by more than 300 credit unions nationwide.

Roger Peters, CEO of Bensenville Community Credit Union, said "One of the key parts of our new system is the ability to go totally paperless - receipts, loan docs, and other miscellaneous documents. For share and loan documents, the members sign the paper on the tablet, and then walk out with their copy, and we have our copy stored electronically."

"Bensenville Community CU wanted tight integration with their next data processor and saw the power of Sharetec's eDocument module working seamlessly with the rest of the core, making it easy to archive and retrieve past signed documents from anywhere at the CU", remarked Matt Isger, Regional Director with Bradford-Scott.

**About Bensenville Community Credit Union**

Bensenville Community Credit Union ([www.bensenvillecu.com](http://www.bensenvillecu.com)) has served its members with consumer-oriented financial services since 1934. Located in the Chicago suburb of Bensenville, the credit union offers full services to its growing membership.

**About Bradford-Scott Data Corporation**

Headquartered in Indianapolis, Bradford-Scott is a leading provider of core data processing systems to credit unions. Bradford-Scott ([www.bradfordscott.com/credit.php](http://www.bradfordscott.com/credit.php)), a provider of both in-house and service bureau solutions, owns and distributes the Sharetec System. With a customer base that has grown 64% since the year 2000; the Sharetec System is one of the most widely installed credit union software systems in the United States.
