Fortress FCU Selects Sharetec Core System

INDIANAPOLIS, IN -- Bradford-Scott Data Corporation, a distributor of the Sharetec System, announced that Fortress Federal Credit Union, in Marion, Indiana, has selected the Sharetec core system. The Sharetec core data processing system is utilized by more than 300 credit unions nationwide.

Lisa Blades, CEO of Fortress FCU, said "We wanted to move to a solution that would allow us to reduce expenses while also improving our operations. We saw how Sharetec would automate share draft and ACH processing, which no other processors we looked at could do. With transmissions and everything Sharetec automates, we calculated Sharetec would save us 90 minutes per day of manual work."

"Many credit unions are in the situation where they need to reduce expenses, but don't want to take a step backwards on the services and add manual work. Sharetec's focus on more automated solutions over the last several years was critical to Fortress FCU's decision.", remarked Matt Isger, Regional Director with Bradford-Scott.

About Fortress Federal Credit Union

Fortress Federal Credit Union (www.fortressfcu.org) has served its members since 1951 and is open to all residents of Grant County, Indiana.
