Sharetec Core Welcomes first credit union in State of Washington

INDIANAPOLIS, IN -- Bradford-Scott Data Corporation, a distributor of the Sharetec System, announced that KBR Credit Union, in Tacoma, Washington, has implemented Sharetec core system. The Sharetec core data processing system is utilized by more than 300 credit unions nationwide.

Kolin McMann, CEO of KBR Credit Union, said "After reviewing several data processors, we felt most comfortable with the technology and services our credit union could grow into with Sharetec. We could have gone with a vendor closer to home, but we felt Sharetec had the most value when comparing the amount of services we could offer for the expense. The conversion to Sharetec was very organized and successful. Now we can set about growing our membership."

"We are excited about moving into the state of Washington, whose progressive credit unions match up well with our product offerings. Kolin had been through several core conversions working at other credit unions and knew what he wanted in his next system. We are proud to have KBR CU as our first customer in Washington", remarked Matt Isger, Regional Director with Bradford-Scott.

About KBR Credit Union

KBR Credit Union (www.kbrcu.org) was founded in 1940 as St. Regis Credit Union. The name was changed in 1975 to KBR Credit Union, representing different divisions of the paper mill – Kraft, Bag and Regional. Through all the changes, KBR Credit Union continued to proudly serve the employees and their family members.

About Bradford-Scott Data Corporation

Headquartered in Indianapolis, Bradford-Scott is a leading provider of core data processing systems to credit unions. Bradford-Scott (www.bradfordscott.com/credit.php), a provider of both in-house and service bureau solutions, owns and distributes the Sharetec System. With a customer base that has grown 64% since the year 2000; the Sharetec System is one of the most widely installed credit union software systems in the United States.
