## Sharetec Customers Have Great Success with User E-mail Discussion Group

INDIANAPOLIS, IN -- [Bradford-Scott Data Corporation](#), an owner/distributor of the Sharetec System, announces the success of their **PowerUsers Discussion Group**, a free e-mail list serve.

Randy Glassburn, CEO of Ball State Federal Credit Union in Muncie, IN, remarks, "Email discussion groups among colleagues who share a common interest are simply a fantastic creation! They spur information and idea sharing, and the more of that you generate, the better off each participant becomes. The PowerUsers Group that all of us Sharetec users participate in is a perfect example!"

Bradford-Scott customers participate in daily discussions using a free e-mail list serve. Some customers actively participate and other customers read only the discussions that interest them. These users share ideas, network, exchange policies and procedures, and discuss what is going on in the industry today. "Over the past several years, PowerUsers has had a steady growth of about 10% each year. We are thrilled to see our customers take advantage of such a valuable group that continues to show great success", says Bonnie Doolittle, Software Manager for Bradford-Scott Data Corporation.

Most of the PowerUsers customers have been with Bradford-Scott for many years; they know their facts and information well and are able to share it with the newer customers. The most important benefit of PowerUsers is that customers get the chance to talk "Credit Union" with those that use the same data processing software. Gregory Rowlett, President of McHenry County Federal Credit Union, in Crystal Lake, IL, says, "PowerUsers is the fastest way to get questions on the Sharetec System or credit union operations answered from a wide range of credit union professionals."
