Another West Coast CU Chooses Sharetec Core

INDIANAPOLIS, IN -- Bradford-Scott Data Corporation, an owner/distributor of the Sharetec System, announced that Bi-Mart Federal Credit Union, in Eugene, OR, has selected Sharetec core system. The Sharetec core data processing system is utilized by more than 300 credit unions nationwide.

“With members located throughout the West Coast, we need a system that offers services to reach and cater to those members. Sharetec offers the best options like mobile banking, mobile deposit capture, remote signatures, and an advanced e-alerts/notices functionality. In addition, for those remote members, Sharetec has an intuitive targeted marketing solution that changes the banners shown depending on which member is on our site and in our home banking”, remarks Chad Olney, CEO of Bi-Mart Federal Credit Union.

Matt Isger, Regional Director of Bradford-Scott, said, “Bi-Mart Federal Credit Union, like more and more credit unions, has a need to service remote members. Members either can’t or don’t want to take time to visit the branches like they used to do. Sharetec’s focus on stronger digital relationships will help Bi-Mart Federal Credit Union grow as they have projected.”

This information contained in this press release is accurate at the time of publication. However, specified information may change over time.

About Bi-Mart Federal CU
