Sharetec Saves Credit Union \$11,000/year with eNotices

INDIANAPOLIS, IN -- Bradford-Scott Data Corporation, an owner and distributor of the Sharetec System, implements their [eNotices](#) module to their credit unions.

With Sharetec's eNotices module, members receive their information faster than they would through traditional mail, providing them easy access to notices, letters and other correspondence related to their account. Members "First" Community Credit Union saves a great deal of money on postage expenses, as well as additional savings from envelopes, paper, ink, folding, and staff time.

Teri McEwen, CEO of Members "First" Community Credit Union, remarked, "We appreciate the fact that Sharetec continually adds new products like eNotices. One of our goals is to keep up with the larger financial players in our market, and the eNotices module gives us that opportunity, which has proven to be a great success for our credit union."

Since Members "First" Community Credit Union started using Sharetec's eNotices module, it has reduced monthly expenses \$975, with a savings of over \$11,000 annually.

The end result of implementing the eNotices feature is that it benefits both the credit union and the member.

This information contained in this press release is accurate at the time of publication. However, specified information may change over time.

About Members First Community Credit Union

[Members First Community Credit Union](#) began operating in 1954 and now serves all residents of Adams, Brown, Pike, and Schuyler counties of Illinois. From the time Teri McEwen joined in 1985, the credit union has grown from \$1 million in assets to \$39 million in assets.
